

Frabina Edwin

Dallas, TX · (832) 451-7642 · frabina2016@gmail.com · linkedin.com/in/frabinaedwin · Frabina.com

EDUCATION

The University of Texas at Dallas

Expected May 2027

B.S. Computer Science — Cybersecurity Focus · Richardson, TX

Relevant Coursework: Data Structures & Algorithms · Computer Architecture · Networks · Cyber Attack and Defense Lab

Certification: CompTIA Security+ (in progress — expected Aug 2026)

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React, Node.js, Flask, Axios

Cloud & AI: AWS Lambda, API Gateway, S3, Knowledge Bases, Retrieval-Augmented Generation (RAG), Embeddings

Cybersecurity: Endpoint Security, Endpoint Hardening, Access Control, Application Control, Patch Management, Network Security, Linux

Tools & Platforms: Microsoft Defender, Git, GitHub, Figma, VS Code

Concepts: OOP, Agile/Scrum, UI/UX, CI/CD, Rest API's, Authentication

PROJECTS

AISOP - AI-Powered Healthcare Chatbot · Capstone

July 2026

- ▶ Built an AI chatbot integrating AWS Lambda, API Gateway, S3, and a Knowledge Base, connecting the frontend to serverless backend services for document-grounded response generation
- ▶ Configured the Knowledge Base ingestion and retrieval pipeline, chunking SOPs and source documents stored in S3 and leveraging embeddings for semantic retrieval of relevant context
- ▶ Developed AI guardrails and user-feedback mechanisms to improve response safety, constrain unsupported interactions, and support evaluation of chatbot responses

MeteorMate - Roommate Finder Platform · ACM Development @ UTD

Jan 2025 – Present

- ▶ Led end-to-end UX design for a student-facing platform, delivering over 50 wireframes and high-fidelity prototypes that establish full interaction pattern
- ▶ Created a cohesive design system with reusable components and color tokens in Figma reducing ambiguity
- ▶ Iterated through over 10 rounds of design reviews incorporating developer and stakeholder feedback

EXPERIENCE

Endpoint Security and Systems Administration Intern · Wize Academy

June 2026 – August 2026

- ▶ Maintained endpoint security by monitoring antivirus status, protection updates, and compliance with security policies
- ▶ Developed standardized documentation for device provisioning, configuration, and troubleshooting to improve consistency and reduce support turnaround time
- ▶ Performed endpoint security audits to identify and remove unauthorized and non-compliant software to strengthen security posture

After School CS Instructor · Wize Academy

Aug 2025 – Present

- ▶ Designed and taught programming and robotics curriculum to 30+ middle school students across 5 cohorts
- ▶ Produced 10+ hands-on coding and robotics projects that raised student engagement survey scores
- ▶ Streamlined lesson prep time by building a reusable library of modular activity templates adopted by 6+ instructors

CAMPUS INVOLVEMENT

Google Developer Student Club @ UTD – President

Aug 2026 – Present

ACM Development @ UTD – UX/UI Design Lead

Aug 2024 – Present
